Before you load the first case, you need to know what has to come out first tomorrow.

3. IDENTIFY WHAT COMES OFF FIRST.

What needs to come off first tomorrow?

4. KEEP FIRST-OUT GEAR ACCESSIBLE.

Keep the cases that need to come off first tomorrow near the doors and easy to reach.

That way we can unload in the right order and get to load-in faster.

SOLVE THE PACK

A mini story from AV Educate

We only need to move a few cases. Let's keep the pack intact and make it smart.

Just slide the two video cases here.

Keep everything else in place.

Smart move! Less work, same order.

Perfect. Two video cases fit right here. Everything else stays put.

Straps on. Nice and tight.

Pack complete. Doors shut. We're good to go!
